The sedan used by the commanding officer Construction work on the permanent quarters was to be completed on 29 September. After that date the unit was scheduled to leave the summer camp.	25X1B
A MVP mortar unit was stationed in the former contonment of the "Dienst fuer Deutschland" labor service. The unit was repeatedly observed moving to the area north of the Altwarp-Warsin road for exercises. Once about 30 large jeeps each towing a morter, probably of 120-mm caliber, and occupied by 6 soldiers were seen leaving the installation. The mortar unit had an estimated strength of 450 men. This corresponded to the quertering space available in the eight temporary buildings of the camp. 2	
25X1A 1. Comment. According to previous information, AAA Regt Boerner of the Mecz Div Eggesin, equipped with 37-mm AA guns, is stationed in the tent came and at installation X in Altwarp. In addition to this unit the installation during firing practices, quartered components of the AAA Regt of Armeegrupp Mord equipped with 35-mm guns. Source of the present report does not distinguish between these two units. The number of guns reported roughly	9
agrees with previous information furnished by another source. The information that many discharges were effected after August is noteworthy as it had been believed that the discharge operation had been completed by mid-August 1953.	25X1A
25X1A 2. Comment. The mortar regiment of the Mecz Div Eggesin is stationed at the contonment. According to previous information, the unit had an estimate strength of 1,200 soldiers in mid-July.
